## Full Stack Developer

Full stack development with 3 years of experience in developing and integrated **frontend & backend** applications.

Possesses knowledge of web technologies such as: **React, Next.js, Node.js, PHP**.

Looking for my next challenge as a full stack/frontend developer.

### Current state

Sep. 2022 - Today

I left my previous job in Sep. 2022 to pursue my passion for web development and expand my skillset. Since then, I have dedicated myself to learning & building Multi Page Applications with **Next.js, React & Node.js** through self guided learning and practical project work.

### EXPERIENCE

#### SimplyAd, Beit Berl— *Full stack dev*

May 2020 - Sep. 2022

Developing & implementing new features for web systems using **PHP, Javascript, MySQL** with a **pixel perfect** precision.

- Retrieve data and pass it with CURL to APIs.
- Designed and developed a system for assembling your own custom product and add it to cart.
- Implemented products filtering for end user.
- Developed a backend system that tracks and targets “abandoned carts” and displays all of their info for the client.

### EDUCATION
