ZIV CARMI

Full Stack Developer

📞 052-5599778   @ carmi.ziv@gmail.com   🔗 github.com/ZivCarmi   📍 Ra'anana

SUMMARY

Full stack development with 3 years of experience in developing and integrated frontend & backend applications. Possesses knowledge of web technologies such as: React, Node.js, Next.js, PHP.
In my work I use the ability to handle multiple tasks simultaneously and always strive to achieve a pixel perfect precision.
Skilled with technological abilities, my style of work is very organized and thorough. I love the challenge of solving a problem, with others or independently.
 I can be highly practical and really motivated of using the latest technologies.

EXPERIENCE

Studies & Projects

📅 10/2022 - Present

As part of my studies and afterwards, I made a couple of projects mentioned in the Projects section
